

OVERVIEW

The Trijicon RMR (Ruggedized Miniature Reflex) sight is the most rugged miniature red dot sight available. It is made from 7075-T6 aluminum to MIL-spec standards and has a patented shape that absorbs impacts and diverts stresses away from the lens, increasing durability. Available in LED, Adjustable LED, or Dual Illuminated (fiber optic / tritium) versions, and with dot sizes ranging from 3.25 MOA to 13 MOA you are sure to find what fits your needs. The RMR is a versatile sight that illuminates in any lighting condition.

Dual-Illuminated

In a recent Norwich University study* of traditional pistol iron sights versus a pistol mounted Trijicon RMR red dot sight, the RMR showed a 26% user improvement. The study participants shot in a variety of distance/speed situations. In every stage of the study, those shooting the handgun/RMR combo hit the center mass of the target with greater proficiency no matter their previous skill level.

**Results based on 2011 study conducted by the Department of Justice Studies and Sociology Norwich University, Northfield, VT.*

Advantageous as a primary sight for many weapon platforms, the Trijicon RMR is also useful when paired with a magnified optic. The RMR serves as a solution to quickly transition from longer ranges to CQB and as a backup sight.

➤ **UNIQUE PATENTED HOUSING SHAPE**

Forged 7075-T6 aircraft aluminum-alloy housing shape diverts the force of an impact away from the lens, greatly increasing the durability of the sight.

➤ **TRUE-COLOR MULTI-COATED LENS**

Creates a wide-band light transmission for minimal change in target area color.

➤ **ADJUSTABLE WINDAGE / ELEVATION**

Easily adjustable without special tools. 1 MOA per click.

➤ **DUAL-ILLUMINATED RMR®**

Tritium-phosphor lamp illuminates reticle in low-light conditions and fiber optics automatically adjust the brightness level and contrast to available light conditions.

➤ **LED RMR®**

Automatically adjusts illuminated reticle to available light conditions. CR2032 battery lasts 2 years of typical use, 5 years in dark storage.

➤ **VERSATILE SIGHT**

Multiple primary applications including rifle, pistol, shotgun and carbine, or use as a secondary sight with a magnified optic.

➤ **PARALLAX-FREE**

➤ **WATERPROOF TO 20 METERS (66 FT.)**

➤ **LIMITED LIFETIME WARRANTY**

Tritium lamp is warranted to illuminate for 15 years from date of original manufacture (Dual-Illuminated RMR). Electronics are warranted for 5 years from date of original manufacture (LED & Adjustable LED RMR).

The small size and rugged design makes the Trijicon RMR® adaptable to many weapon platforms, including pistols. Photo to the right shows the RMR milled into a Glock 17 slide with Trijicon Bright & Tough™ Suppressor Sights.

ADJUSTABLE LED RMR®

➤ **ADJUSTABLE BRIGHTNESS**

Features an automatic brightness mode and controls for eight adjustable settings including 2 NV and 1 super bright.

➤ **LONG LASTING BATTERY LIFE**

CR2032 battery lasts up to 4 years at a brightness setting of 4 out of 8.

➤ **EASY PUSH BUTTONS**

The brightness adjustment buttons are designed to be easily manipulated and accessible.
